

**BRUCE LACH**  
President  
763-593-3000  
brucel@sccnet.com

Bruce Lach has 40+ years of IT and General Management experience. During his first 20 years, he spent time in “corporate America” with IT stints at Twin City Federal, General Mills and Land O’Lakes. In the mid-90’s, Bruce began leading start-up and small businesses providing IT services to large enterprises in the Twin Cities area. Many of these services were focused on building data warehouses for familiar companies including Wells Fargo, Toro, Valspar, Harvest States, and more. In the decade prior to joining SUCCESS, Bruce was a “turnaround guy” consulting with distressed and mildly profitable businesses to improve business operations and profitability leveraging Theory of Constraints.

**BRENT MORRIS**  
Vice President of  
Business Development  
612-987-1559  
brentm@sccnet.com

Brent is responsible for the growth, strategy, and development of the sales and marketing teams at SUCCESS Computer Consulting. As the Vice President of Business Development, he constantly seeks innovative ways to reach businesses and connect them with our experts to help them integrate technology with their business goals. Brent’s leadership is key to helping SUCCESS’ clients experience the promise of technology.

**JAMIE WOLBECK**  
Vice President of Operations  
763-593-3000  
jamiew@sccnet.com

Jamie leads all technical operations teams at SUCCESS to provide our clients with best-in-class technical support and customer service. Jamie plays a primary role in developing SUCCESS’ technical services, policies, and processes. He works directly with the help desk, field, and project services teams to ensure a seamless experience for our clients. Additionally, Jamie heads up the development of SUCCESS’ technical maturity models to ensure our clients have meaningful technology plans that align with their business priorities and they realize significant business results from their technology investments. His passion for technology and wide-ranging experience in network engineering and compliance allow him to be an excellent technology leader.

**BRANDON NOHR**  
Chief Technology Officer, CEH  
651-338-5063  
brandonn@sccnet.com

Brandon Nohr leads SUCCESS Computer Consulting's long-term technology vision and is responsible for the continuous development and evolution of SUCCESS products, services, and technical standards. With an IT track record spanning over 20 years, Brandon's experience in the industry and leadership in the community has led to a reputation that is second to none. He began his consulting career by designing and supporting custom software solutions for the service industry, joined SUCCESS in 2007 as a project engineer, and evolved into a technical leadership role in which he was responsible for developing a business intelligence practice. Presently, Brandon completed his Certified Ethical Hacker certification and is key in developing solutions that protect the businesses SUCCESS serves.

**SCOTT WIYNINGER**  
Sales Manager  
763-300-1735  
scottw@sccnet.com

Scott Wiyninger is the Sales Manager at SUCCESS Computer Consulting. He leads both the sales and account management teams. Scott began his career as a music teacher prior to moving into a professional sales career. After 10 years of selling telephone systems to SMB companies, he moved into IT sales and sales leadership. Scott is passionate in applying his education and coaching background to empower the SUCCESS team in educating our clients on the possibilities and risks in IT and IT Security.

**VANESSA BRYANT**  
Marketing Director  
651-724-7566  
vanessab@sccnet.com

Vanessa leads SUCCESS Computer Consulting's marketing strategy. Her responsibilities include creating marketing campaigns that align with business goals, producing and overseeing digital content, managing events, and using insights to fuel strategy. Vanessa thrives on seeking to understand the most effective ways to market to our audience using digital methods. Presently, Vanessa is the lead content creator for Microsoft Teams, producing blog articles and presenting quarterly at marketing events.
